ACKNOWLEDGEMENTS

The production of this report would not have been possible without the concerted effort of the police departments and sheriff's offices throughout the State of Wyoming who report accurately and regularly to the Wyoming Uniform Crime Reporting Program Section of the Center for Criminal Justice Research. The significance of their contribution is demonstrated in this report which presents detailed information on the extent and fluctuation of crime in Wyoming.

INTRODUCTION

This annual report of Crime in Wyoming, 1980, contains law enforcement data compiled from Uniform Crime Reporting (UCR) records. These records were designed to collect pertinent standardized law enforcement data at the city and county levels and were prepared in compliance with the Federal Bureau of Investigation's (FBI) Uniform Crime Reporting Program Standards and Definitions.

Local law enforcement agencies prepare UCR forms containing offense, clearance, arrest and supplemental information and submit the reports on a monthly basis to the State UCR Section of the Center for Criminal Justice Research, Division of Criminal Identification, Office of the Attorney General.[1] The UCR Section then verifies the reports, automates the data for later analysis at the State level and then forwards the reports to the FBI for use in compilation and analysis of national crime statistics.

It is important to note certain constraints which should be exercised in interpreting and drawing conclusions from the data contained herein. Although Wyoming has yet to achieve 100 percent reporting, 64 individual agencies currently report and these agencies serve jurisdictions representing 96.7 percent of the State's population.[2] Twenty-three of these agencies are sheriff's offices and forty-one are police departments.

---

[1]See W.S. 1977 §7-1-122 for legislation mandating the reporting of crime information to the Attorney General's Office.

[2]Population figures used in this report are from the 1980 preliminary census release.

Additionally, there are other inherent limitations in the current crime reporting practices. Of primary importance is the question of how much crime is being reported. Law enforcement agencies are capable only of reporting crimes known to them. In many instances, citizens do not report crimes directly to these agencies but may report them to the prosecuting authorities. A considerable volume of crime is not reported to law enforcement agencies because the victims may consider the offenses against them to be of little consequence, they may believe there is nothing the police can do about them, or they may fear retaliation from the offender. Consequently, information concerning some offenses is never entered into the present statistical reporting system.

Further, only arrest data is submitted on Part II Offenses.[3] Therefore, current UCR statistics do not necessarily measure the true incidence of crimes or the actual economic loss incurred by victims.

Crimes and arrests should not be compared on a one-to-one basis; a crime is an event and an arrest relates to an individual. For example, several crimes may be solved by one arrest or many persons can be arrested for committing one crime.

The information presented in this report protrays the most accurate and realistic assessment currently available of the crime situation in Wyoming. UCR statistics are not designed as an indicator of agency activity for use in direct comparison, but rather pertain to a specific geographic area. A causal relationship exists between crime and many socio-economic factors. However, reported crime activity is a measurable quantity and, as such, should be used to present the clearest possible picture of the dimensions, fluctuations and impact of crime in Wyoming.

---

[3]See page 105 for definitions.

CRIME INDEX

Volume

During the period January through December 1980, a total of 22,785 Index offenses were reported by Wyoming law enforcement agencies compared to 21,047 Index offenses during the same period one year ago. This represents an increase of 7.1 percent.[4] The crimes in this category are all serious, either by their very nature or because of the frequency with which they occur, and present a common enforcement problem to all law enforcement agencies. Crimes within this Index are categorized as Violent Crimes (which include murder, forcible rape, robbery, and aggravated assault) or Property Crimes (which include burglary, larceny-theft and motor vehicle theft). By congressional mandate, arson was added as the eighth Index offense in late 1978. Although arson has been reclassified as an Index offense, data collection and presentation will remain independent of the various other Index offenses.

Violent Crimes

Violent crimes involve the element of personal confrontation between the perpetrator and victim, and entail the use or threat of force or violence. By their very nature, violent crimes are considered more serious than property crimes. The violent crimes, as a group, rose 18.5 percent.

---

[4] This figure was calculated by making a comparison on an agency-by-agency basis in which those agencies where reports are on file for the same months for 1979 and 1980 were compared. When interpreting PERCENT CHANGE figures throughout this report, caution must be used since a slight increase or decrease in the number of actual reported offenses may dictate a large percent change due to the relatively small volume of offenses.

Murder, the only violent Index crime to show a decrease, fell 27.5 percent in volume compared to 1979. Forcible rape increased 17.3 percent, robbery was up 10.8 percent and aggravated assaults increased sharply by 21.4 percent as compared with 1979. These offenses for 1980 made up 8.0 percent of the total Crime Index compared to 7.2 percent for 1979.

Property Crimes

Property crimes do not involve the use or threat of violence, but entail property taken from one by another. As a group, the Index property crimes increased 6.2 percent in volume compared to one year ago. Burglary was up 6.8 percent, larceny-theft rose 7.0 percent and motor vehicle theft dropped 2.7 percent. Property crimes accounted for 92.0 percent of the total Crime Index for 1980 compared to 92.8 percent for 1979.

Rate

During 1980, the rate per 10,000 inhabitants in Wyoming for all Index offenses was 499.9. This compares to a rate of 475.0 per 10,000 inhabitants during the previous year. Categorically, the rate per 10,000 inhabitants for violent crime was 39.9 in 1980 and 34.2 per 10,000 in 1979. Crime against property experienced an increase from a rate of 440.8 per 10,000 in 1979 to 459.0 for 1980.

Clearances

For Uniform Crime Reporting purposes, an Index offense is cleared

when 1) a law enforcement agency has identified the offender, 2) there is enough evidence to charge him, and 3) he is actually taken into custody. The arrest of one person can clear several crimes or several persons may be arrested in the process of clearing one offense. Clearances are also recorded in exceptional circumstances when some element beyond the control of the law enforcement agency precludes formal charges being brought against the offender.

Of the 22,785 offenses reported to the police during 1980, 4,768 were cleared for an overall clearance rate of 20.9 percent. Violent crimes evidenced a substantially higher clearance rate than property crimes, with 50.5 percent of the violent crimes resulting in a clearance, while only 18.4 percent of the property crimes were cleared.

The relatively high clearance rate for violent crimes compared to the non-violent property crimes is due in part to the volume difference between the two groups. The volume of property crime is much greater than that of violent crime and police investigation of violent crime is usually more intensive. The element of confrontation between the victim and the perpetrator may also contribute to the higher clearance rate for violent crimes.

Stolen Property Value

The value of property stolen in conjunction with the Index offenses in Wyoming during 1980 totaled $15,451,465, compared to $12,758,344 stolen during 1979. This represents an increase of 17.4 percent. Law enforcement officials were successful in recovering 45.7 percent of the loss, or $7,053,809 resulting in a net loss to the victim of $8,397,656.

Arson

An increase of 48.1 percent was noted in the number of arson offenses reported or known to Wyoming law enforcement agencies during 1980. Arson offenses totaled 154 in 1980 compared to 104 during 1979. Of the 154 reported arsons during this period, 50 or 32.5 percent were cleared, compared to 25 clearances, or 24.0 percent during 1979. Property damage totaled $8,574,687, more than 24 times greater than the $355,996 estimated property damage during 1979.

Seasonal Fluctuations

The monthly totals for reported Crime Index offenses for 1979 and 1980 illustrate that the summer months generally are the high crime months with July the peak month for both years. Quarterly, the period of July through September, during 1979 and 1980 had the highest volume of reported Index offenses. Semi-annually, the first six months of both comparative years, recorded fewer reported offenses than the last six months of each year.

CRIMINAL HOMICIDE

Murder

Murder and non-negligent manslaughter are defined for the Uniform Crime Reporting Program as the willful (non-negligent) killing of one human being by another. One offense is counted for each person willfully killed by another. As a general rule, any death due to a fight, argument, quarrel, assault, or commission of a crime is included. Attempted murders and assaults to murder are scored as aggravated assaults and not as murder. Also excluded are suicides, accidental deaths, and justifiable homicides.

During the period January through December, 1980, 29 murders for a rate of 0.6 per 10,000, were reported or known to the police, compared to 40 murders, 0.9 per 10,000, in 1979. A comparison on an agency-by-agency basis reflects a 27.5 percent decrease in the number of murders known to the police compared to 1979. Of the 29 murders during 1980, 29 offenses have been reported as cleared for a clearance rate of 100.0 percent, compared to 80.0 percent or 32 clearances during 1979. No property loss was reported in connection with the murders during 1980, compared to $439 in 1979. Offenses of murder account for 0.12 percent of the total Index offenses reported or known to the police during 1980 compared to 0.19 percent in 1979.

In all cases of murder reported in the Uniform Crime Reporting Program, a supplemental homicide report is submitted by the participating law enforcement agency.

This report provides pertinent information consisting of a situation code; the age, sex and race of victims and offenders where known; the weapon used; the relationship of the victim to the offender; and any circumstances or motives which led to the commission of the crime.

Presented in the following tables and figures is a summary of offense, victim and offender information on the homicides reported during 1980 from these reports.

MANSLAUGHTER BY NEGLIGENCE

Manslaughter by negligence is defined as the killing of another person through gross negligence. Generally, deaths caused by the gross negligence of another are counted. One offense is scored for each person killed. The death of a person caused by his own negligence is not counted as an offense. Also excluded are traffic fatalities. While manslaughter by negligence is a Part I crime, it is not included in the Crime Index.

During 1980, 4 offenses of manslaughter by negligence were reported or known to the police as compared to 1 offense in 1979. All of these offenses, those in 1980 and 1979, have been reported as cleared.

Presented in the following is a summary of offense, victim and offender information on the negligent manslaughters reported in 1980.

FORCIBLE RAPE

Forcible rape is defined in the Uniform Crime Reporting Program as the carnal knowledge of a female forcibly and against her will. Included in this offense category are attempts or assaults to commit rape. Statutory rape (without force) and other sex offenses are not included in this category. One offense is counted for each female raped or upon whom an assault or attempt has been committed.

During 1980, 131 forcible rapes were reported or known to the police as compared to 114 in 1979. A comparison on an agency-by-agency basis indicates a 17.3 percent increase in the volume of rapes was experienced in 1980 over 1979. Of the 131 forcible rapes reported during 1980, 63 have been cleared for a clearance rate of 48.1 percent as compared to 70 clearances or 61.4 percent in 1979. In 1980, property loss in the rape category was reported at $445, compared to $293 in 1979. Offenses of forcible rape and attempts to commit forcible rape account for 0.57 percent of the total Index offenses reported or known to the police during 1980, compared to 0.54 percent in 1979.

By Uniform Crime Reporting definitions, the victims of forcible rape are always female. Given this fact, a more accurate accounting of the victimization rate for this offense requires excluding males from the population base figure. For 1980, it has been estimated that 50.6 percent of the State's population is female, or 231,145 persons. This represents a rate of 5.7 forcible or attempted rapes per 10,000 females. It is important to note that victimization studies in recent years indicate that offenses of rape are not equally distributed throughout the female population; very young and very old females are victimized much

less frequently than the young to middle-aged females. With this fact in mind, a separate victimization rate was calculated for females between the ages of 14 and 64 years. The victimization rate for this subpopulation of females is substantially greater, rising to 8.7 victimizations per 10,000 females.

Though the UCR Program does not collect age data, it is believed that the exclusion of females below 14 and above 64 years of age will have no more than a negligible effect on the validity of these figures.

	TOTAL NUMBER OF PERSONS	RAPES KNOWN TO POLICE	RATE PER 10,000	RATIO OF RAPES TO WOMEN
ALL FEMALES[7]	231,145	131	5.7	1:1,764
FEMALES 14 to 64[8]	151,418	131	8.7	1:1,156

[7]The percentage of the States' population that is female and that portion from 14 to 64 is based on data compiled by the Division of Research and Statistics, Department of Administration and Fiscal Control, State of Wyoming, 1979 Wyoming Population and Employment Forecast.

[8]Readers are referred to Nicolette Parisi, Michael J. Hindelang, Michael R. Gottfredson and Timothy J. Flanagan, eds., Sourcebook of Criminal Justice Statistics - 1978 (Washington, D.C.; U.S. Government Printing Office, 1979) pp 367-383, for victimization rates for females of different age categories. See also Albert J. Reiss, "Problems in the Documentation of Crime" in Anthony L. Guenther, Criminal Behavior and Social Systems (Chicago: Rand McNally, 1976) pp 111-130, for a discussion supporting the reporting of victim-specific crime rates.

ROBBERY

Robbery is defined as the taking or attempting to take anything of value from the care, custody or control of a person or persons by force or threat of force or violence and/or putting the victim in fear. In any instance of robbery, one offense is counted for each distinct operation. The number of persons robbed or those present at the robbery are disregarded. Additionally, the number of persons committing the crime has no reflection on the number of offenses being counted.

During the period January through December 1980, 207 robberies, for a rate of 4.5 per 10,000, were reported or known to the police, compared to 188 robberies, a rate of 4.2 per 10,000, during 1979. An agency-by-agency comparison with the same months for the two years indicates a 10.8 percent increase in the number of offenses over January through December 1979. Of the 207 robberies during 1980, 94 have been cleared amounting to a clearance rate of 45.4 percent compared to a clearance rate of 43.6 percent, or 82 clearances of robbery during 1979. The value of property stolen in robberies during 1980 decreased 0.1 percent or $164 from 1979. Of the $141,939 stolen in robberies during 1980, $59,779 was stolen in residential robberies (42.1 percent), with robberies of the highway category reflecting the second largest category at $24,628 or 17.4 percent of the total robbery loss. Robbery offenses account for 0.90 percent of the total Index offenses reported or known to the police during January through December 1980, up from the 0.89 percent noted in 1979.

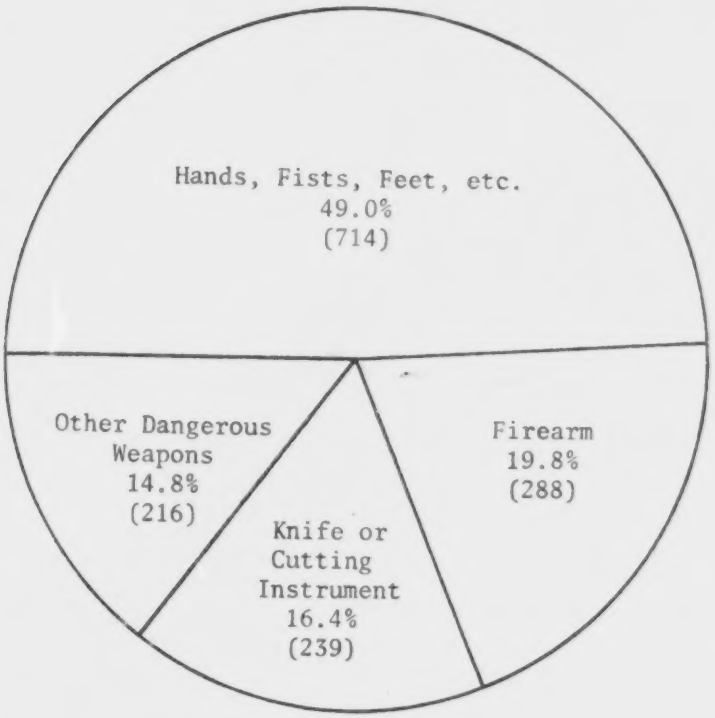
ASSAULT

Aggravated Assault

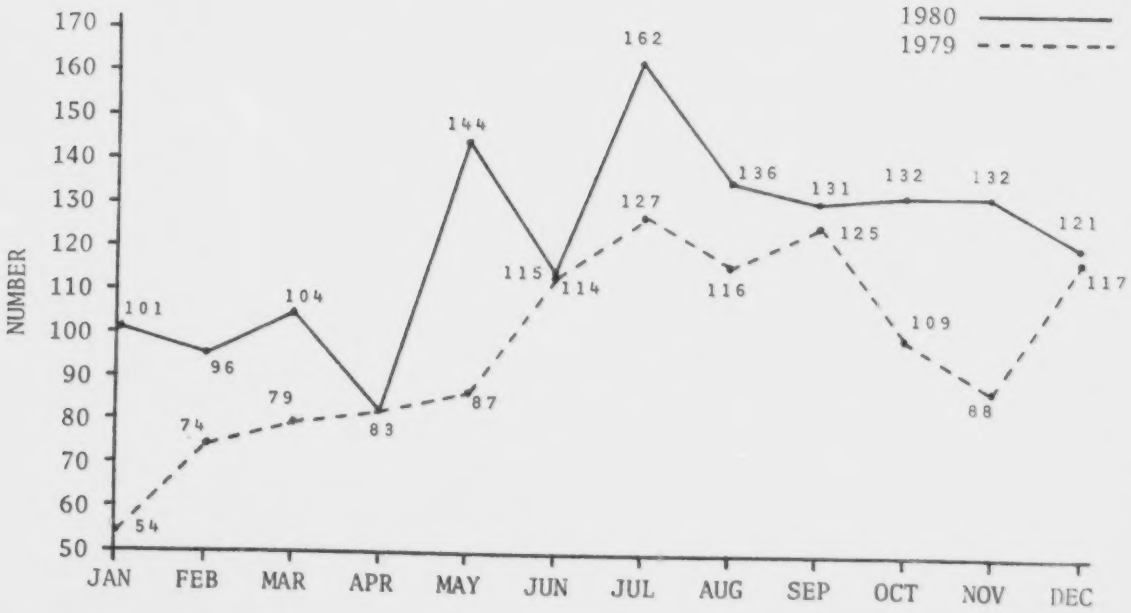
Aggravated assault is defined as an unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault is usually accompanied by the use of a weapon or by means likely to produce death or great bodily harm. Attempts are included since it is not necessary that an injury result when a gun, knife, or other weapon is used which could, and probably would result in serious personal injury were the crime successfully completed. One offense is scored for each person assaulted or upon whom an attempted assault has been made.

During the period, January through December 1980, 1,457 aggravated assaults were reported or known to the police for a rate of 31.9 per 10,000 as compared to 1,173 aggravated assaults, a rate of 26.5 per 10,000 in 1979. An agency-by-agency comparison with the same months for the two years reflects a 21.4 percent increase in the number of offenses during 1980. Of the 1,457 aggravated assaults reported during 1980, 735 have been cleared accounting for a clearance rate of 50.4 percent, compared to a clearance rate of 60.5 percent, or 710 clearances of aggravated assault during 1979. Offenses of aggravated assault account for 6.4 percent of the total Index offenses reported or known to the police during January through December 1980, compared to 5.6 percent in 1979.

AGGRAVATED ASSAULTS BY WEAPON
JANUARY - DECEMBER, 1980



AGGRAVATED ASSAULT
JANUARY - DECEMBER, 1980 - 1979

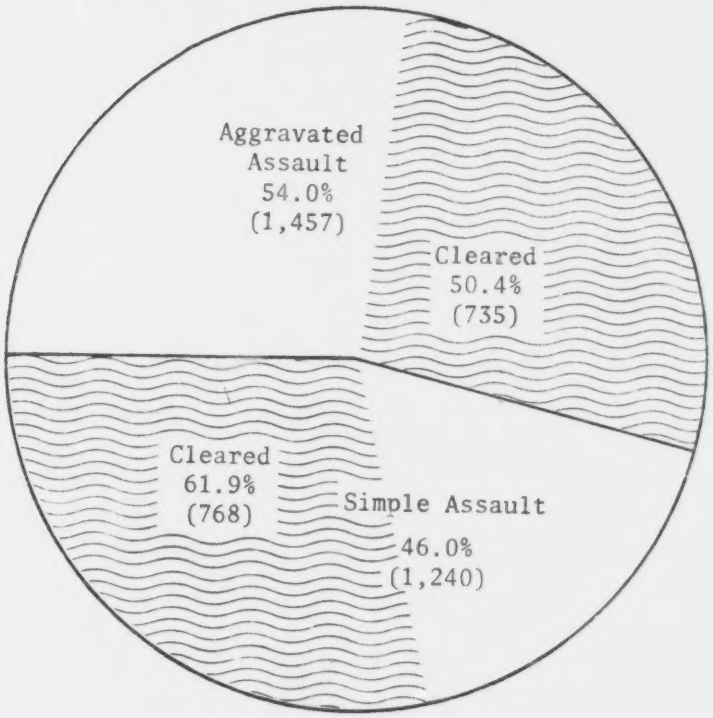


Simple Assault

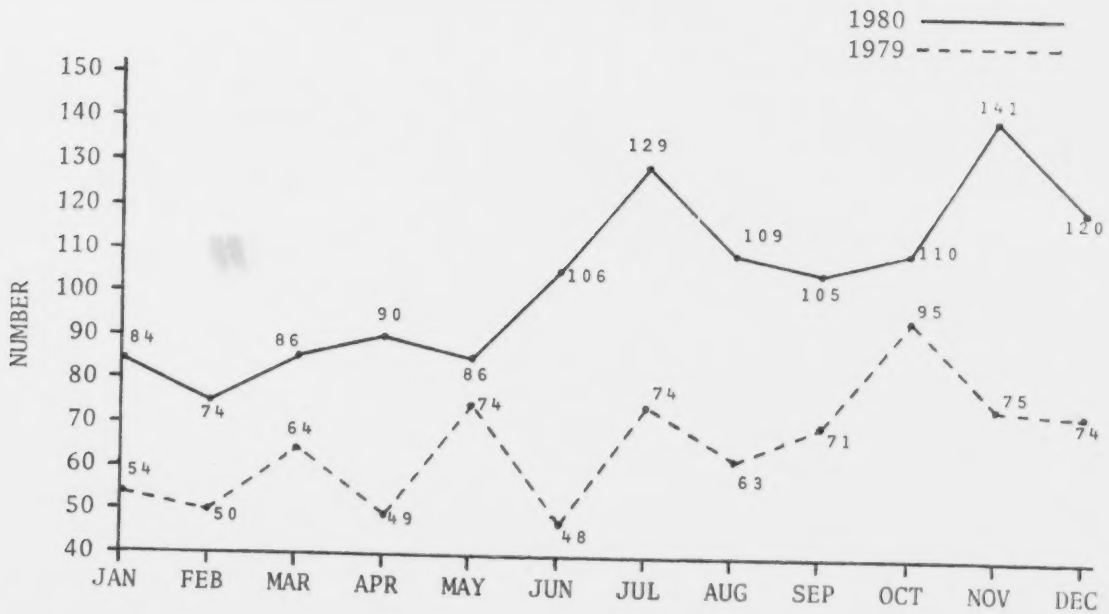
This category is for all assaults which did not involve the use of a firearm, knife or cutting instrument, or other dangerous weapon and there was no serious or aggravated injury to the victim. Simple assault is a Part II offense not a Crime Index offense, but is collected under the assault category for quality control and for the purpose of reviewing total assaultive violence.

During the period January through December 1980, 1,240 simple assaults were reported or known to the police, a rate of 27.2 per 10,000, compared to 791 offenses, a rate of 17.0 per 10,000, of simple assault for 1979. An agency-by-agency comparison with the same months for the two years reflects a 56.5 percent increase in the number of simple assaults reported over 1979. Of the 1,240 simple assaults reported during 1980, 768 have been cleared, for a clearance rate of 61.9 percent. This compares to a clearance rate of 79.0 percent, or 625 clearances of simple assault during 1979. Simple assaults accounted for 46.0 percent of the total offenses in the assault category during 1980, compared to 40.3 percent for 1979.

ASSAULT DISTRIBUTION
JANUARY - DECEMBER, 1980



SIMPLE ASSAULTS
JANUARY - DECEMBER, 1980 - 1979



LAW ENFORCEMENT OFFICERS ASSAULTED

Included are all assaults on officers who have full arrest powers in which the officer sustained serious injury or in which a weapon was used which could have caused serious injury or death. Also counted are those sworn officers who were not injured, provided the assault was more than mere verbal abuse or minor resistance to an arrest. When an officer is assaulted in the line of duty, even though in an "off duty" status where he is performing official law enforcement duties, an assault is counted.

An average rate of 10 of every 100 law enforcement officers statewide were assaulted in 1980 as compared to a rate of 9 per 100 officers in 1979. During 1980, 115 assaults on law enforcement officers were reported compared to 91 assaults in 1979 portraying an increase of 26.4 percent. Of the 115 assaults during 1980, 93.9 percent or 108 of these assaults have been cleared as compared to 87 clearances or 95.6 percent in 1979. Injuries were sustained in 33 of the 115 assaults on officers during 1980 as compared to 43 in 1979 which represents a decrease in the number of injurious assaults of 23.3 percent.

In all cases of assaults on law enforcement officers reported in the Uniform Crime Reporting Program, a supplemental report is submitted by the participating law enforcement agency. This report provides detailed information regarding a particular assault on a law enforcement officer. Such supplemental reports categorize the type of activity, type of weapon, type of assignment, assaults cleared, whether the assault resulted in injury by weapon category and the time of occurrance.

Presented in the following tables is a summary from the supplemental reports for 1979 and 1980.

BURGLARY

The Uniform Crime Reporting Program defines burglary as the unlawful entry of a structure to commit a felony or theft. The use of force to gain entry is not required to classify an offense as burglary. Burglary in this Program is categorized into three subclassifications: forcible entry, unlawful entry where no force is used, and attempted forcible entry. One offense is counted for each distinct operation.

During the period of January through December, 1980, 4,136 burglaries were reported or known to the police compared to 3,789 burglaries during 1979. An agency-by-agency comparison with the same months on file for the two years, reflects a 6.8 percent increase in the number of offenses over 1979. The 1980 rate per 10,000 persons in the State is 90.6 compared to a rate of 85.5 per 10,000 in 1979. Of the 4,136 burglaries during 1980, 794 have been cleared for a clearance rate of 19.2 percent. This compares to a clearance rate of 21.6 percent or 820 clearances of burglary offenses during 1979. The value of property stolen during 1980 increased by $712,470 or 31.5 percent over 1979. A total of $2,972,328 was stolen in burglaries in 1980 as compared to $2,259,858 in 1979. Of all burglaries during 1980, 59.3 percent involved residences compared to 57.9 percent during 1979.

Offenses of burglary account for 18.2 percent of the total Index offenses reported or known to the police during 1980, as compared to 18.0 percent for 1979.

LARCENY - THEFT

Larceny-theft is defined as the unlawful taking, carrying, leading or riding away of property from the possession or constructive possession of another. It includes crimes such as shoplifting, pocket-picking, purse snatching, thefts from motor vehicles, thefts of motor vehicle parts and accessories, bicycle theft, etc., in which no use of force, violence or fraud occurs. In the Uniform Crime Reporting Program this crime category does not include embezzlement, "con" games, forgery and worthless checks. Motor vehicle theft is also excluded from this category for crime reporting purposes inasmuch as it is a separate Crime Index offense. One offense is counted for each distinct operation.

During the period, January through December 1980, 15,243 larcenies were reported or known to the police, compared to 14,134 larcenies one year ago. The rate per 10,000 persons in the State climbed from 319.0 in 1979 to 333.8 in 1980. An agency-by-agency comparison with the same months for the two years reflects a 7.0 percent increase in the number of larcenies over 1979. Of the 15,243 larcenies reported during 1980, 2,485 have been cleared for a clearance rate of 16.3 percent. This compares to 18.5 percent, or 2,617 clearances of larceny during 1979. Of the total larcenies reported during 1980, 32.2 percent were under $50 in value, 37.0 percent were $50 to $200 in value and 30.8 percent were over $200 in value. Larceny offenses accounted for 66.9 percent of the total Index offenses reported to the police during 1980, compared to 67.2 percent during 1979.

MOTOR VEHICLE THEFT

In Uniform Crime Reporting, motor vehicle theft is defined as the theft or attempted theft of a motor vehicle. This definition excludes the taking of a motor vehicle for temporary use by those persons having lawful access. Also excluded are thefts of farm equipment, construction equipment, airplanes and motor boats, the theft of which is scored as a larcency. One offense is counted for each vehicle stolen or where an attempt is made to steal a motor vehicle.

During the period of January through December, 1980, 1,582 thefts of motor vehicles were reported or known to the police, compared to 1,608 motor vehicle thefts in 1979. An agency-by-agency comparison with the same months for the two years reflects a 2.7 percent decrease in the number of motor vehicle thefts compared to 1979. Of the 1,582 motor vehicle thefts reported during 1980, 568 have been cleared for a clearance rate of 35.9 percent. This compares to 42.8 percent, or 689 clearances during 1979. Although the number of motor vehicle thefts declined over 1979, the total value of motor vehicle thefts increased by 15.5 percent, or $950,140. During 1980, the value of motor vehicles stolen totaled $7,072,235, compared to $6,122,115 in 1979.

Offenses of motor vehicle theft accounted for 6.9 percent of the total reported Index offenses during 1980 and accounted for 45.8 percent of the total value of stolen property. This compares with 7.6 percent and 48.0 percent, in each of the respective categories for 1979.

The motor vehicle theft rate of 34.6 offenses per 10,000 inhabitants in 1980 was down from the 36.3 per 10,000 in 1979. In 1980, an average of 1 of every 300 registered motor vehicles was stolen statewide compared to 1 of every 279 in 1979. The 1980 rate per 10,000 registered motor vehicles was 33.4 compared to a rate of 35.9 per 10,000 registered vehicles in 1979.

ARSON

Arson, established as a Crime Index offense in late 1978 by congressional mandate, is defined as any willful or malicious burning or attempt to burn, with or without intent to defraud, a dwelling house, public building, motor vehicle or aircraft, personal property of another, etc.

During the period, January through December, 1980, 154 arsons were reported or known to the police, compared to 104 arsons for 1979, indicating a 48.1 percent increase.[9] The rate per 10,000 persons in the State was up from the 2.3 per 10,000 in 1979 to 3.4 per 10,000 persons in 1980.

Of the 154 arsons reported during 1980, 50 have been cleared for a clearance rate of 32.5 percent. This compares to 25 clearances or 24.0 percent for 1979. Clearances involving only juveniles accounted for 56.0 percent of the total clearances during 1980 compared to 52.0 percent during 1979.

Estimated value of property damage during 1980 was more than 24 times greater than the figure reported for 1979. The estimated value of property damage during 1980 totaled $8,574,687 compared to $355,996 in 1979.

---

[9]Although arson was established as a Crime Index Offense in late 1978, data collection did not begin until July of 1979. Participating agencies provided arson data for January through June of 1979 where possible yet several offenses of arson committed during the six month period of 1979 may have escaped being reported.

INDEX OFFENSES BY CONTRIBUTOR

The tables on the following pages depict the total Crime Index Offenses, excluding arson, by county and agency for January through December, 1980. A column displaying 1979 Index totals has been provided for agency comparison. Also presented is the percent change by county and agency where sufficient months were on file to calculate the change.

The population coverage figures are presented in order to provide the base figures used to calculate the crime rate per 10,000 inhabitants. Population figures utilized in preparing this report are from the 1980 Census of Population and Housing, U.S. Department of Commerce, Bureau of the Census.

The crime rate per 10,000 inhabitants was not calculated for those agencies with less than twelve months on file and those agencies were excluded from the county rate.

If any agency should desire to recalculate any of these figures using their own county or city population figures, the formula is as follows:

$$\text{Rate} = \frac{x}{y} \times 10{,}000$$

Where: x = the number of offenses (or that for which the rate per 10,000 is desired)

y = the population base

To alter the "rate" figure, simply substitute any other number for 10,000 (i.e. 1,000, 500, 250, etc).

STOLEN AND RECOVERED PROPERTY

Supplementary reports relating to the value of property stolen and recovered are also provided by the participating law enforcement agencies. This supplementary report requires a value to be established for property stolen and recovered for each Crime Index offense. The determination of the value of property stolen is an obligation of the investigating officer. The following suggested procedures aid in this determination.

A. Use fair market value for items subject to depreciation.

B. Use the wholesale cost of goods stolen from retail establishments, warehouses, etc.

C. The victims evaluation of non-depreciable items.

D. Use replacement cost or actual cash cost to victim for new or almost new items.

Additional guidelines:

A. When recovered property is in a condition different from what it was at the time of the theft, the value at the time of recovery is used even though it is less than at the time it was stolen.

B. The value of property counted only refers to those crimes which occur in that jurisdiction and the value of property recovered includes only property originally stolen from that jurisdiction. However, it does not matter who recovers the property or where it was recovered.

The tables and charts on the following pages illustrate the data provided by these supplemental reports.

PERSONS ARRESTED

Although primarily an indication of law enforcement activity, the number of arrests provides a limited profile of the perpetrators of crime, especially for those crimes which have high clearance rates. Differences in arrest practices, policies, and enforcement emphasis among agencies influence the volume of arrests for various offenses, particularly those against public order, i.e., drunkeness, vagrancy, disorderly conduct and related violations. However, arrests for serious crimes, e.g., robbery or burglary, are more likely to be consistent and uniform throughout all jurisdictions. Procedures employed in the UCR Program require that an arrest be counted on each separate occasion an individual is taken into custody, notified or cited for committing an offense in that jurisdiction. Also, although several charges may be placed against a person at the time of arrest, only one arrest is counted each separate time he is taken into custody.

Law enforcement agencies in Wyoming effected 28,018 arrests during 1980. This figure is up 13.6 percent from the 24,658 arrests recorded in 1979.

During 1980, arrests of persons under 18 years of age increased 5.1 percent over 1979, while arrests of persons 18 years of age and over rose 15.8 percent. When only arrests for Crime Index offenses (murder and non-negligent manslaughter; forcible rape; robbery; aggravated assault: burglary; larceny-theft; motor vehicle theft; and arson) were used to compute a trend, arrests of persons under 18 years of age dropped 15.9

percent and arrests of persons 18 years of age and over increased by 5.0 percent, compared to 1979. Overall, total arrests for Crime Index offenses notes a 2.7 percent decrease in the volume of arrests in 1980 when compared to 1979.

Male arrests increased 13.8 percent over 1979 and female arrests increased 12.9 percent for all offenses. Arrests of males outnumber those of females by nearly 6 to 1 with males accounting for 86.5 percent of the arrests for Index Crimes and 93.5 percent of those for crimes of violence. Female arrests for Index Crimes were down 17.2 percent from 1979. Their criminal involvement continues to be related mainly to larceny, which accounted for 73.2 percent of all female arrests for Index offenses.

Arrests for all drug abuse violations during January through December 1980, increased 19.8 percent over 1979. Drug abuse violation arrests accounted for 4.3 percent of the total arrests during 1980, as compared to 4.1 percent during 1979.

Depicted on the tables that follow is Wyoming arrest data for 1980. The first table presents the State totals for 1980 and 1979. Following this is arrest data by county and agency.

It should be noted here that juvenile arrests are in accordance with the age definition of a juvenile under the National Uniform Crime Reporting Program (a person under 18 years of age).

LAW ENFORCEMENT PERSONNEL

The law enforcement employee rates presented in the following tables should be viewed as guides or indicators, not as recommended or desirable police strengths. Because of the wide variations in the law enforcement responsibilities across the State, caution should be used when attempting any comparison of employee rates. Just as many factors affect the extent and type of crime from place to place, the conditions present in any given community affect the type of police service required. Adequate manpower for a specific locale can only be determined after careful study and analysis of the various conditions which contribute to the requirements for law enforcement service in that jurisdiction.

*Index Crimes Per Officer was not calculated for those agencies with less than twelve months on file.

**This figure is based on those agencies with twelve months on file only.

††This figure is based on the fall enrollment, 1980, of 9,014 students. (University of Wyoming, Registrars Office.)

OFFENSES IN UNIFORM CRIME REPORTING

Offenses in Uniform Crime Reporting are divided into two groupings designed as Part I and Part II crimes. Information on the number of Part I offenses known to law enforcement, the number cleared by arrest or exceptional means, and the number of persons arrested is reported monthly. Arrest data are reported for Part I and Part II offenses.

The Part I offenses are as follows:

1. Criminal homicide.-a. Murder and nonnegligent manslaughter: the willful (nonnegligent) killing of one human being by another. Deaths caused by negligence, attempts to kill, assaults to kill, suicides, accidental deaths, and justifiable homicides are excluded. Justifiable homicides are limited to: (1) the killing of a felon by a law enforcement officer in the line of duty; and (2) the killing of a felon by a private citizen. b. Manslaughter by negligence: the killing of another person through gross negligence. Excludes traffic fatalities. While manslaughter by negligence is a Part I crime, it is not included in the Crime Index.

2. Forcible rape.-The carnal knowledge of a female forcibly and against her will. Included are rapes by force and attempts or assaults to rape. Statutory offenses (no force used-victim under age of consent) are excluded.

3. Robbery.-The taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force or violence and/or by putting the victim in fear.

4. Aggravated assault.-An unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury.

This type of assault usually is accompanied by the use of a weapon or by means likely to produce death or great bodily harm. Simple assaults are excluded.

5. Burglary-breaking or entering.-The unlawful entry of a structure to commit a felony or a theft. Attempted forcible entry is included.

6. Larceny-theft (except motor vehicle theft).-The unlawful taking, carrying, leading, or riding away of property from the possession or constructive possession of another. Examples are thefts of bicycles or automobile accessories, shop-lifting, pocket-picking, or the stealing of any property or article which is not taken by force and violence or by fraud. Attempted larcenies are included. Embezzlement, "con" games, forgery, worthless checks, etc., are excluded.

7. Motor vehicle theft.-The theft or attempted theft of a motor vehicle. A motor vehicle is self-propelled and runs on the surface and not on rails. Specifically excluded from this category are motorboats, construction equipment, airplanes, and farming equipment.

8. Arson.-Any willful or malicious burning or attempt to burn, with or without intent to defraud, a dwelling house, public building, motor vehicle or aircraft, personal property of another, etc.

The Part II offenses are:

9. Other assaults (simple).-Assaults or attempted assaults where no weapon was used or which did not result in serious or aggravated injury to the victim.

10. Forgery and counterfeiting.-Making, altering, uttering, or possessing, with intent to defraud, anything false which is made to appear true. Attempts are included.

11. Fraud.-Fraudulent conversion and obtaining money or property by false pretenses. Included are larceny by bailee and bad checks except forgeries and counterfeiting.

12. Embezzlement.-Misappropriation or misapplication of money or property entrusted to one's care, custody, or control.

13. Stolen property; buying, receiving, possessing.-Buying, receiving, possessing stolen property, including attempts.

14. Vandalism.-Willful or malicious destruction, injury, disfigurement, or defacement of any public or private property, real or personal, without consent of the owner or person having custody or control.

15. Weapons; carrying, possessing, etc.-All violations of regulations or statutes controlling the carrying, using, possessing, furnishing, and manufacturing of deadly weapons or silencers. Included are attempts.

16. Prostitution and commercialized vice.-Sex offenses of a commercialized nature, such as prostitution, keeping a bawdy house, procuring, or transporting women for immoral purposes. Attempts are included.

17. Sex offenses (except forcible rape, prostitution, and commercialized vice).-Statutory rape and offenses against chastity, common decency, morals, and the like. Attempts are included.

18. Drug abuse violation.-State and local offenses relating to narcotic drugs, such as unlawful possession, sale, use, growing and manufacturing of narcotic drugs.

19. Gambling.-Promoting, permitting, or engaging in illegal gambling.

20. Offenses against the family and children.-Nonsupport, neglect, desertion, or abuse of family and children.

21. Driving under the influence.-Driving or operating any vehicle or common carrier while drunk or under the influence of liquor or narcotics.

22. Liquor laws.-State or local liquor law violations, except "drunkenness" (offense 23) and "driving under the influence" (offense 21). Federal violations are excluded.

23. Drunkenness.-Drunkenness or intoxication. Excluded is "driving under the influence" (offense 21).

24. Disorderly conduct.-Breach of the peace.

25. Vagrancy.-Vagabondage, begging, loitering, etc.

26. All other offenses.-All violations of state or local laws, except offenses 1 - 25 and traffic offenses.

27. Suspicion.-No specific offense; suspect released without formal charges being placed.

28. Curfew and loitering laws.-Offenses relating to violation of local curfew or loitering ordinances where such laws exist.

29. Runaways.-Limited to juveniles taken into protective custody under provisions of local statutes.
